

**JOBO GIGA3 Plus**  
(EAN 4022124013465)

**Mobile 40 GB hard drive including 8in1 card reader**

**GIGA3 Plus** offers an innovative solution to the problem of not having enough flash memory space. The device offers slots for 8 different cards including CF I/II, Microdrive, SM, SD, MM, MS, MS Pro (xd via Adapter SE9107). With it you can directly store data from your flash card to the mobile hard drive. It can be used with the internal Li-Ion battery or with AC power. The internal battery is automatically charged whenever the GIGA3 is attached to AC power. **GIGA3 Plus** has an additional upload function which allows you to write data your flash memory card. Copying data from flash memory cards is as easy as the push of a button. You can monitor download progress, watch the files being saved on the internal hard disk and check the remaining power all on the large LCD. The earphone jack (earphone included) allows you to use **GIGA3 Plus** as a 40 GB MP3 player as well. The high-speed transfer of data (also **RAW-format**) is up to **2 MB/sec.** to the internal 2,5"hard disk. **GIGA3 Plus** includes a **Verify-Function**, which guarantees only transfer of non-damaged files to the hard disk. **GIGA3 Plus** also functions as a USB card reader and external disk drive for PC's and Mac's via the **USB 2.0** interface. When attached to a computer, you can select and work with your stored pictures and data. **GIGA3 Plus** is also able to format its internal hard disk without a PC.
