

JOBO GIGA mini
(EAN 4022124013472)

Mobile 20 and 40 GB hard drive including 8in1 card reader with 1,8 " hard disk.

GIGA mini offers slots for 8 different cards including CF I/II, Microdrive, SM,SD, MM, MS, MS Pro (xd via Adapter SE9107). With it you can directly store data from your flash card to the mobile hard drive. It can be used with the internal Li-Ion battery or with AC power. The internal battery is automatically charged whenever the GIGA3 is attached to AC power. **GIGA mini** has an additional upload function that allows you to write data to your flash memory card. Copying data from flash memory cards is as easy as the push of a button. You can monitor download progress, watch the files being saved on the internal hard disk and check the remaining power all on the large LCD. The earphone jack (earphone included) allows you to use **GIGA mini** as a 20 and 40 GB MP3 player as well. Due to its optimised photo functions, **GIGA mini** offers an innovative and ultra-small solution to the problem of having not enough flash memory space. **GIGA mini** includes a **Verify-Function**, which guarantees only transfer of non-damaged files to the hard disk. **GIGA mini** also functions as a USB card reader and external 1,8" hard disk drive for PC's and Mac's via the **USB 2.0 interface**. When attached to a computer you can work with your stored pictures and data. **GIGA mini** is also able to format its internal hard disk drive without a PC.
